

# Cronos Security – Cloud Security Engineer

Are you passionate about cybersecurity and cloud technologies? Do you thrive on solving complex challenges and building secure, automated solutions? We are looking for a Cloud Security Engineer to help strengthen our growing Cloud SOC team.

As part of our Managed SOC offering, we deliver a full-service Security Operations Center to customers. In this engineering role, you'll go beyond monitoring—you'll design, automate, and optimize security services that make a real impact.

## As a Cloud Security Engineer, you will:

- Set up and configure new customers in our SOC environment.
- Build workflows and integrations to streamline security operations.
- Optimize detection rules and create advanced threat detection logic.
- Explore and implement AI-driven enhancements for security processes.
- Contribute to new services like Vulnerability Management as a Service (VMaaS) and External Attack Surface Management (EASM).
- Share ideas, suggest improvements, and help shape the future of our SOC.

## We're looking for someone with:

- A degree in IT and ideally 1–2 years of experience in infrastructure or security engineering.
- Familiarity with Microsoft technologies and cloud security concepts.
- Automation & Infrastructure: Logic Apps, Terraform, Azure
- Security Tools: Microsoft Sentinel, Defender XDR
- Scripting: Python, PowerShell, Bash
- Strong problem-solving skills, eager to learn and contribute.
- Fluent in Dutch & English, French is a plus.
- You are a true team player who values knowledge sharing and collective success.

At SecWise, we believe that security is serious business—but work should still be fun. We're a tight-knit team within the Cronos Group, and as a proud member of the Microsoft Intelligent Security Association (MISA), we stay at the forefront of modern security innovation. Knowledge sharing, personal growth, and a healthy work-life balance are part of our DNA.

## Here's what we offer:

- A competitive salary package with a company car.
- Great benefits through the Cronos Group care package.
- A flat, open culture where your ideas matter.

- Support to grow into the best version of yourself.

Ready to engineer the future of cloud security? Apply now or reach out to learn more about how you can make an impact at SecWise.
